How to add fonts to system

```
# download nerd fonts
wget
https://github.com/ryanoasis/nerd-fonts/releases/download/v3.4.0/0xProto.zip
mkdir fonts
cp 0xProto.zip fonts
cd fonts
unzip 0xProto.zip

# Copy to font location
sudo cp*.{ttf,otf} /usr/local/share/fonts/

# Update the font cache
fc-cache -f -v
```
