Install plugin installer Vundle

```
git clone https://github.com/VundleVim/Vundle.vim.git
~/.vim/bundle/Vundle.vim
```

Vim config .vimrc

```
set nocompatible              " be iMproved, required
filetype off                  " required

set rtp+=~/.vim/bundle/Vundle.vim
call vundle#begin()
" let Vundle manage Vundle, required

let maplocalleader = ","
```

Install formatters

```
sudo apt install python3-autopep8
```

Install linter

```
sudo apt install pylint
```

Enable spell

1. Start vim
2. type

```
:set spell
```

and confirm create location for spell files

Theme

gruvbox

Manual install theme

```
mkdir -p ~/.vim/colors
cd ~/.vim/colors
wget
https://raw.githubusercontent.com/vim-scripts/gruvbox/master/colors/gruvbox.
vim
```

Add to .vimrc

```
colorscheme gruvbox
```

Install FNF for search files in Vim

```
sudo apt-get install fzf silversearcher-ag
```

For Plugin YouCompleteMe (YCM)

```
sudo apt install cmake
cd ~/.vim/bundle/YouCompleteMe
python3 install.py
```

For Latex plugin support - vim-tex - latexrun is not executable!

```
git clone https://github.com/aclements/latexrun.git
cd latexrun
sudo cp latexrun/latexrun /usr/local/bin/
```

Latex support

```
sudo apt install texlive-extra-utils
```
